SUMMARY

Full-stack developer and visual designer focused on AI integration, UI/UX, and rapid prototyping. Experience building full-stack applications with LLM pipelines, API integration, and user-centered design. ABET-certified Applied Computer Science degree.

SKILLS

Languages: Python, Java, JavaScript, HTML/CSS, SQL

Development: Full-stack web development, API integration, database design, data structures & algorithms, Git/GitHub, BitBucket

AI/ML: LLM integration (OpenAI, Anthropic, Gemini), neural networks, local model deployment, ComfyUI workflows & Stable Diffusion (2+ years), model training

Infrastructure: Cloud computing, MySQL databases, computer networking, server management

Security: Penetration testing, Kali Linux, cybersecurity fundamentals, network security

Data & Analytics: Data pipelines, web scraping, data processing, Jupyter Notebook, data visualization, Python scripting

Design & Tools: PyCharm, IntelliJ IDEA, WordPress, CMS platforms, web design, plugins, Shopify, Adobe Creative Suite (10+ years), graphic design,

WORK EXPERIENCE

Full-Stack Web Developer |

Dasan Media | Feb 2022 – November 2024 | Cape Girardeau, MO

- Managed full-stack web development and computer systems for client projects
- Implemented API integrations and custom plugin development for WordPress applications
- Handled server maintenance, CMS management, and digital project planning
- Worked autonomously from concept through deployment with direct client communication

Web Designer & Digital Marketing Specialist

Beyond Spaces | May 2019 – December 2022 | Cape Girardeau, MO

- Specialized in custom WordPress development and web design for small business clients
- Developed company branding, graphic design assets, and digital marketing campaigns
- Managed client communication and project requirements throughout development lifecycle
- Coordinated with clients to launch digital marketing and content creation campaigns

PROJECTS

distillerat_ | distillerat.com | github.com/dillonledford/distillerat

Developer Activity Aggregation & AI Summarization Platform

- Integrates GitHub and Google Drive APIs with LLM processing to generate structured project briefings across multiple sources
- Implements OAuth authentication, user accounts, database storage, and multi-mode reporting
- Built independently and deployed in 6 days with free tools under \$10
- Full-stack deployment: Python/Flask backend, SQLite database, OAuth (GitHub/Google), multiple Google APIs, Gemini LLM integration, live on Render

CipherDrop | github.com/dillonledford/cipherdrop

Offline desktop encryption tool with cryptographic erasure

- AES-GCM file encryption/decryption with drag-and-drop interface and bulk file support
- Built with Python and tkinter for cross-platform desktop deployment
- Implements secure key derivation and cryptographic file deletion

Reddit Media Gallery | faux.onrender.com | github.com/dillonledford/reddit-media-gallery

Clean minimal image gallery for browsing any subreddit

- Built with Python/Flask with sorting options, keyword filtering, and keyboard navigation
- Implements Reddit API integration and responsive image loading
- Deployed live web application with server-side rendering

EDUCATION

Bachelor of Science in Applied Computer Science | May 2024

Southeast Missouri State University | ABET Accredited | Cybersecurity Capstone
